BioMatrix DRUG ELUTING CORONARY STENT SYSTEM NeoFlex™

Raising the standard in deliverability

BIOSENSORS INTERNATIONAL™

BioMatrix NeoFlex™: Exceptional performance – Premium deliverability

Biosensors brings you the newest member of the BioMatrix™ family:
BioMatrix NeoFlex.

With the LEADERS[1] trial 5-year results BioMatrix Flex™ achieved
Gold Standard status in biodegradable technology.

Now BioMatrix NeoFlex with an enhanced stent delivery system, brings
exceptional performance in complex lesions and challenging anatomy.

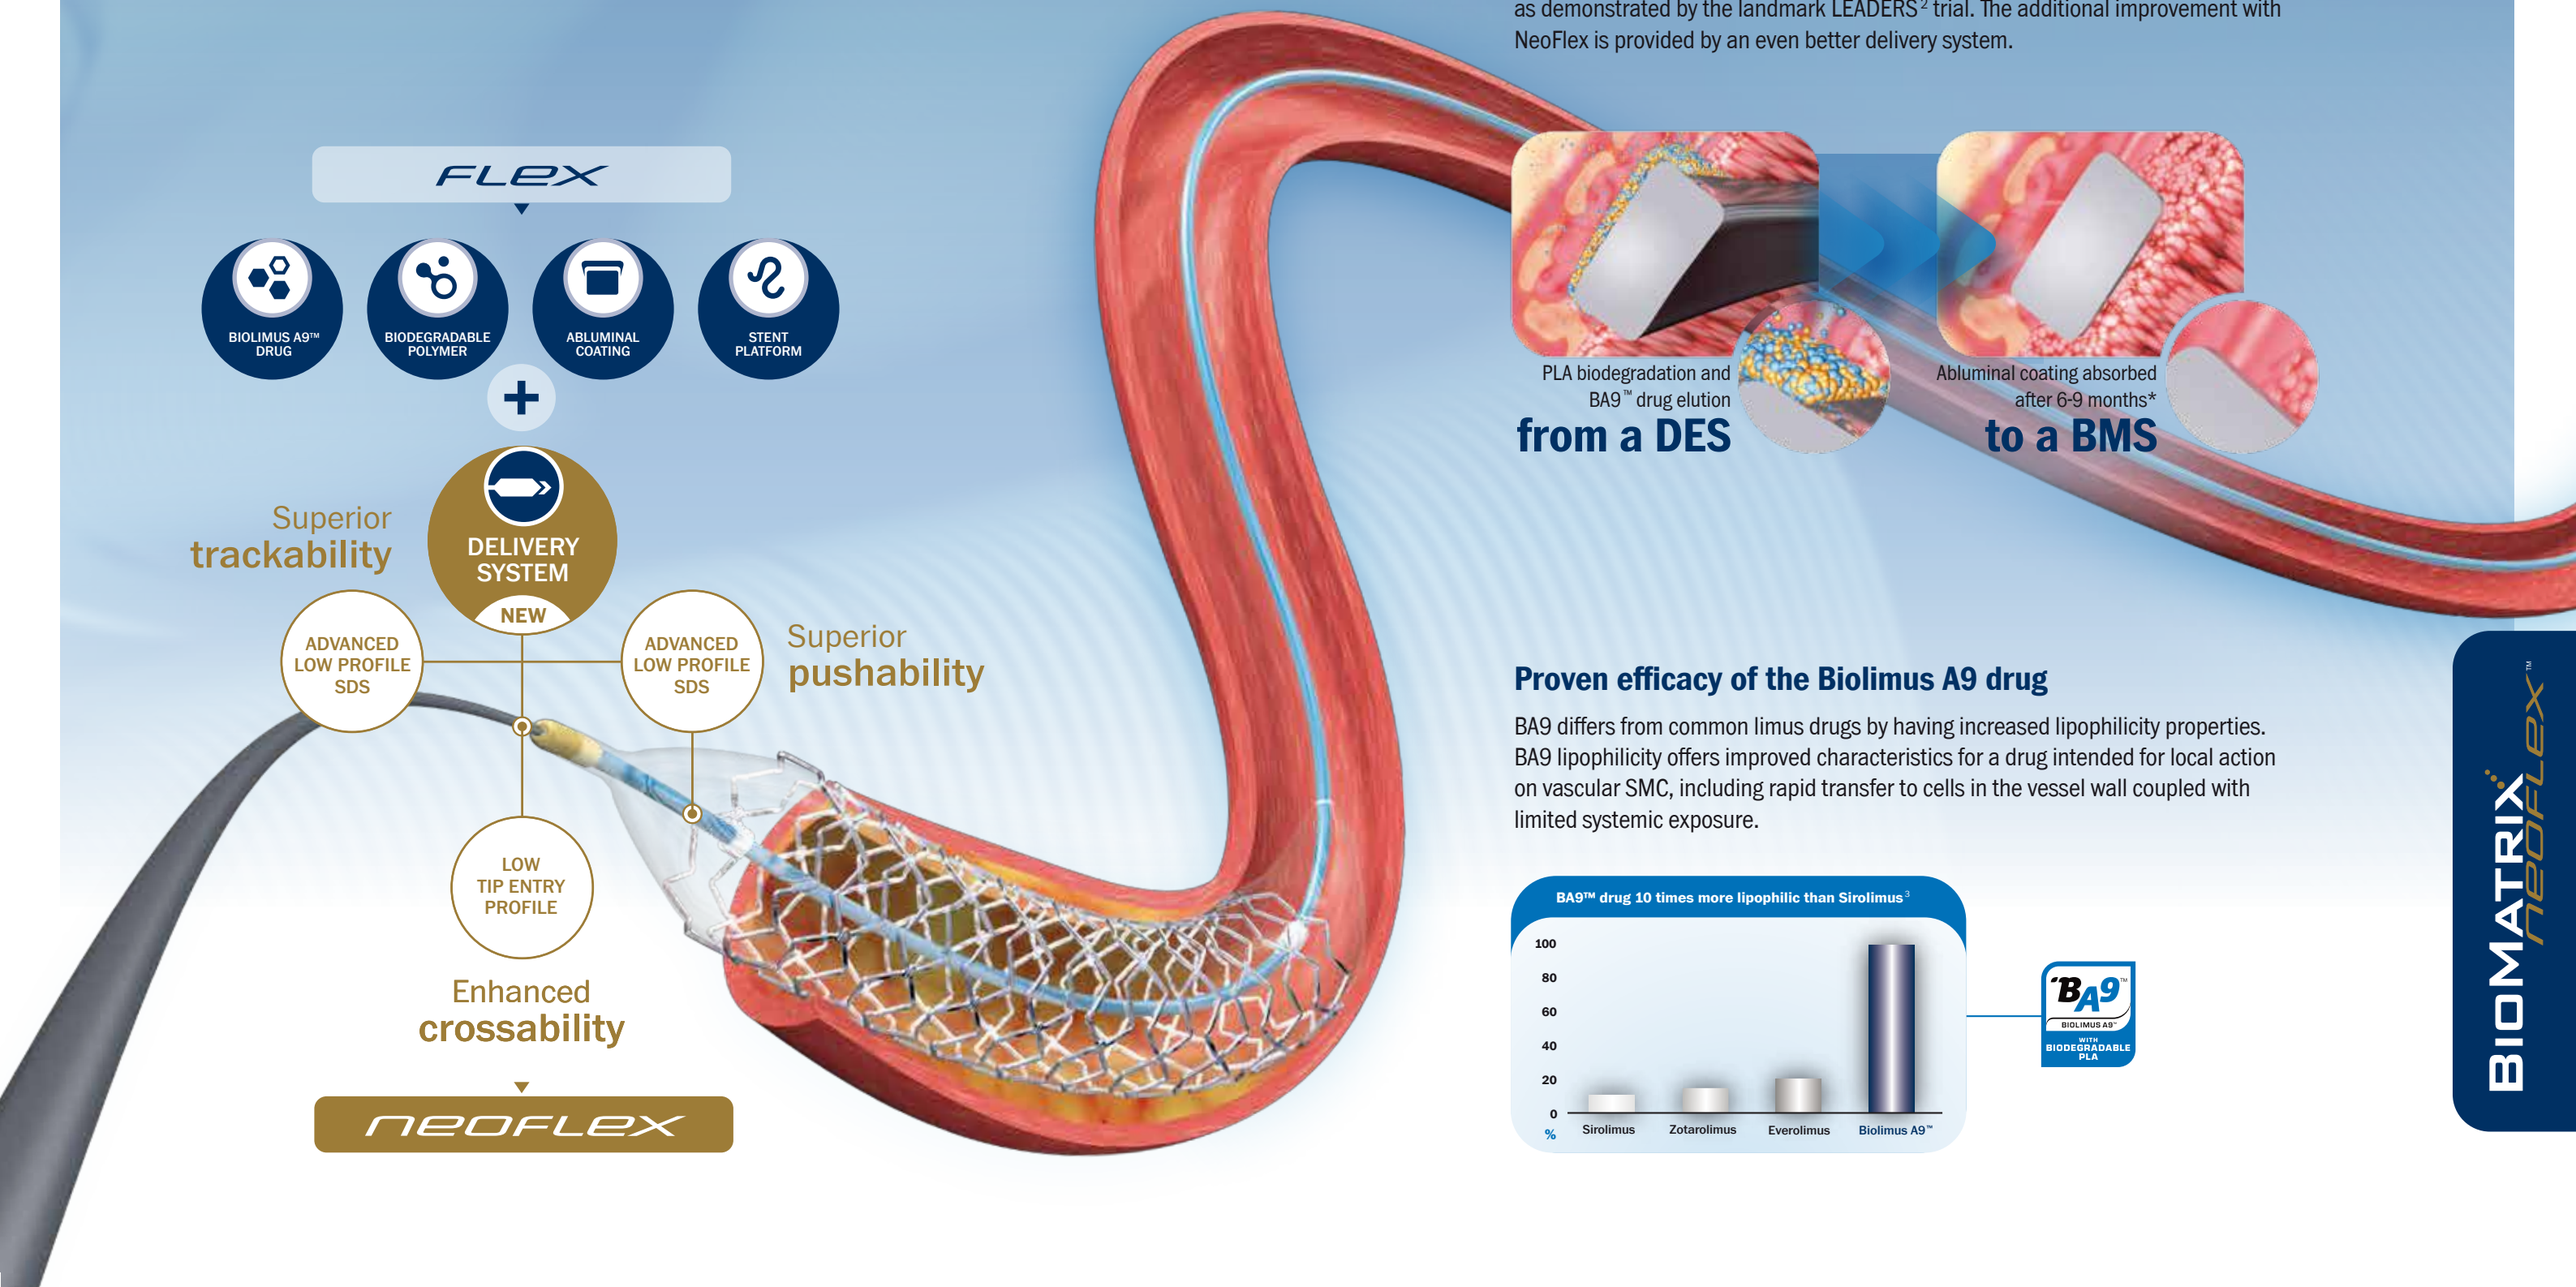
NEOFLEX



BioMatrix NeoFlex: one step beyond

When it comes to biodegradable polymer technology, Biosensors has developed the highest level of expertise and delivered the best results in terms of safety and efficacy, as demonstrated by the landmark LEADERS[2] trial. The additional improvement with NeoFlex is provided by an even better delivery system.

Proven efficacy of the Biolimus A9 drug

BA9 differs from common limus drugs by having increased lipophilicity properties. BA9 lipophilicity offers improved characteristics for a drug intended for local action on vascular SMC, including rapid transfer to cells in the vessel wall coupled with limited systemic exposure.
